

Rutik Shivaji Thitame

Address: Pune, Maharashtra, 411002

Mobile No.: +919067812785 Email: rutikthitame@gmail.com

Objectives:

Aspiring Software Developer with strong foundations in programming, problem-solving, and full-stack development. Skilled in multiple programming languages, databases, and frameworks with hands-on experience through academic and industrial projects. Seeking an opportunity to apply technical expertise to build scalable and impactful software solutions.

Education Qualification:

Standard	Institute	Board/University	Percentage	Class
B.E.	SCOE, Pune	SPPU	7.18	First Class
Diploma	AVCOE, Sangamner	MSBTE	86.26	First Class Dist.
SSC	Chandaneshwar vidyalaya, Chandanapuri	Maharashtra State Board	79.20	First Class

Professional Summary

- Experienced in **application development** using C, C++, Java and JavaScript.
- Hands-on expertise in **Linux System Programming** using C & C++, with exposure to low-level concepts.
- Proficient in **algorithm design and optimisation**, ensuring efficient and scalable solutions.
- Knowledgeable in **server-side web development** using Java (Spring Boot) and Node.js.
- Experienced in **front-end development using React** to build responsive and user-friendly web applications.
- Strong understanding of **Operating System internals**, system-level concepts, and performance tuning.
- Designed and implemented **6+ industry-oriented projects**, including full-stack, cryptography, and reusable libraries.
- Gained hands-on experience in **RESTful API development, database integration, and cross-platform programming**.
- Practical expertise in **encryption & system-level security** through projects like Secure File Transfer Simulation.
- Experienced in building both **console-based and GUI-based applications** to enhance user interaction.
- Familiar with **Agile and Waterfall SDLC methodologies**, delivering structured and timely solutions.
- Active contributor on **GitHub** with well-documented repositories showcasing projects.
- **Strong analytical and problem-solving skills** with the ability to quickly learn, adapt, and mentor peers in programming and project development.

Technical Skills:

Programming Paradigms & Languages

- **Procedural Programming:** C
- **Object-Oriented Programming (OOP):** C++, C# .NET
- **Virtual Machine-based Programming:** Java
- **Scripting Languages:** JavaScript

Web Technologies: HTML5, CSS2/CSS3, JavaScript

IDE & Tools: Visual Studio Code, Visual Studio, Sublime, Webstorm, IntelliJ

Web Servers: Apache Tomcat 8.0.22, WebLogic 12.2.1, IBM WebSphere8.5.

Version Control: GIT

Database: P'L/SQL(Oracle), MySQL, MS SQL, MongoDB (NoSQL)

Operating System: Windows NT, Linux Distributions, UNIX SYS V4

Testing techniques: Unit testing

Methodologies: Agile, Waterfall

Technical projects:

1. Spare Parts Shop – Full Stack Web Application

Technology: Java(Backend), Spring Boot, JavaScript(Frontend), React.js, MySQL, REST API's

GitHub repository(Backend): <https://github.com/rutikthitame/Spareparts-Shop>

GitHub repository(Frontend): <https://github.com/rutikthitame/SpareParts-Shop-frontend>

- Developed a full-stack Spare Parts Shop application with a React-based front end and Node.js/Express backend, integrated with MySQL for data storage and management.
- Implemented secure authentication & authorisation using JWT to manage users, roles & protected routes.
- Built responsive and dynamic UI with React, React Router and Bootstrap, enabling smooth navigation and enhanced user experience.
- Integrated RESTful APIs for product management, cart handling, and order processing, ensuring seamless communication between client and server.

2. File Packer & Unpacker with Encryption

Technology: Java, Encryption

GitHub repository: <https://github.com/rutikthitame/File-Packer-Unpacker-with-Encryption>

- Built a file archiving utility with integrated encryption/decryption.
- Implemented metadata preservation during packing/unpacking.
- Designed GUI using Swing for user-friendly interaction

3. Custom DBMS

Technology: Java

GitHub repository: <https://github.com/rutikthitame/Custom-DBMS.git>

- Built a custom DBMS in Java with SQL-like query support and persistent file storage.
- Designed dynamic schema handling using Java Reflection and runtime class generation.
- Implemented a command-line SQL parser with filtering, auto-increment, and backup features.

4. Customise Virtual File System (CVFS)

Technology: C programming, OS Internals

GitHub repository: <https://github.com/rutikthitame/Customised-Virtual-File-System>

- Simulated Linux-like file system operations with a custom shell.
- Implemented system calls (open, read, write, lseek, delete).
- Gained hands-on understanding of inodes, file tables, and OS design.

5. Generalised Data Structure Library

Technology: C++

GitHub repository: <https://github.com/rutikthitame/Generalized-Data-Structures-Library>

- Developed a reusable library of linear & non-linear data structures.
- Implemented stacks, queues, linked lists, BST, searching & sorting.
- Designed using templates for data type independence.'

6. Secure File Transfer Simulation

Technology: C++, WIN32 SDK, DLL, Cryptography

GitHub repository: <https://github.com/rutikthitame/Secure-File-Transfer-Simulation>

- Implemented Bowfish, Caesar & XOR cipher encryption/decryption.
- Performed file I/O using Windows system calls (CreateFile, ReadFile).
- Packaged logic into DLL for modular and reusable functionality.

Profiles

- **GitHub:** <https://github.com/rutikthitame>
- **LinkedIn:** https://www.linkedin.com/in/rutik-thitme-a58ab6289?utm_source=share&utm_campaign=share_via&utm_content=profile&utm_medium=ios_app

Personal information

- **Date of Birth:** 08/05/2003
- **Father's Name:** Shivaji Thitame
- **Marital Status:** Single
- **Nationality:** Indian

The above mentioned information is authentic to the best of my knowledge.
